## CROSS-BORDER HEALTHCARE PATHWAY: DBS IN DYSTONIA

## **DBS** in **Dystonia**

Standard pathway for **cross-site expert advice** for **management decisions** in **Dystonia patients**.

It allows to receive **individual recommendations** concerning DBS, such as **indication** and/or **target selection** and/or **treatment advice for transplanted patients**, with the aim of optimizing patient care. (Restricted to European Union)

## Who provides this service?

Project Coordinator
Thomas Musaccio
Movement Disorder specialist

Project Coordinator Martin Reich DBS specialist

Other ERN-RND specialists Invited case-by-case e.g. Geneticists, psychologist...

CPMS helpdesk Alisa Jemelka & Tamara Martin Organisational & technical support

How do you receive cross-site expert advice concerning DBS (pre/post-OP) for a dystonia patient?

Contact CPMS helpdesk.

They will propose a meeting date & support you with data upload in CPMS

Email address: <a href="mailto:cpms-helpdesk\_ern-rnd@med.uni-tuebingen.de">cpms-helpdesk\_ern-rnd@med.uni-tuebingen.de</a>

Share data via CPMS.
Enroll your patient in
CPMS & upload MRIs.
Add relevant clinical
details.

Important:
Upload <u>all data > 2 weeks</u>
prior to meeting date

Additional data may be required! CPMS helpdesk will be in touch with you.

Join the videocall. Additional colleagues can also join the call.

In the call, you will be asked to quickly present your case, bringing everyone on the same page. The experts will then ask questions and share their opinions.

Give feedback & close your case in CPMS.

Was the consultation a success?

Not (fully) succesful (yet)? We are happy to convene a second meeting with you.
